***SheRise***

**- A Community-Driven  
Platform for Women's Micro-  
Services**

# Introduction

**SheRise** is a community-driven hybrid platform designed to empower women by enabling them to offer microservices such as stitching, cooking, home tuition, and more from their homes or local areas. By bridging the gap between skilled women and potential customers, SheRise promotes financial independence, community engagement, and skill recognition for women.

# Objectives

**To empower Bangladeshi women by promoting home-based microservices.**

**To create income opportunities for women with limited mobility or resources.**

**To bridge the gap between skilled women and customers through a digital platform.**

**To support women entrepreneurs in becoming self-reliant.**

# Features

General Features (Core Platform Functions):

- Create Service Profile with pictures, location, category
- Identity verification
- Find providers of your need
- Flexible Booking System
- Customer satisfaction

# Features

Special Features (Competitive Edge):

- Women-Focused Design
- Support for Informal Skills
- Community Feed
- Portfolio

# Methodology

## TECH STACKS

### FRONTEND

- HTML
- CSS
- JAVASCRIPT

### BACKEND

- Supabase
- JavaScript

### (IDE)

- VS Code

# Why Supabase ???

**Built-in authentication system**

**Real-time data support**

**Real-time Features for DOM Manipulation**

**Secure file storage system**

**Logging in...**

The image shows a split-screen preview of a platform interface. On the left, a 'Login' screen is displayed with fields for email and password, and buttons for 'Login', 'Forgot Password?', and 'Don't have an account? Sign up'. A red progress bar at the bottom indicates 'Logging in...'. On the right, the platform's main dashboard is shown. It features a header with the SheRise logo, navigation links for Home, About, Services, Profile, and Cart, and a user profile section for 'Meena Khan'. Below the header is a pink banner with the text 'Looking for Anything' and 'WE got YOU!'. It describes SheRise as 'more than a platform' and 'a movement to unlock the potential of women and transform passion into purpose'. A 'Search Here' button is also present. To the right of the banner is a photograph of three women standing outdoors.

# Database Preview

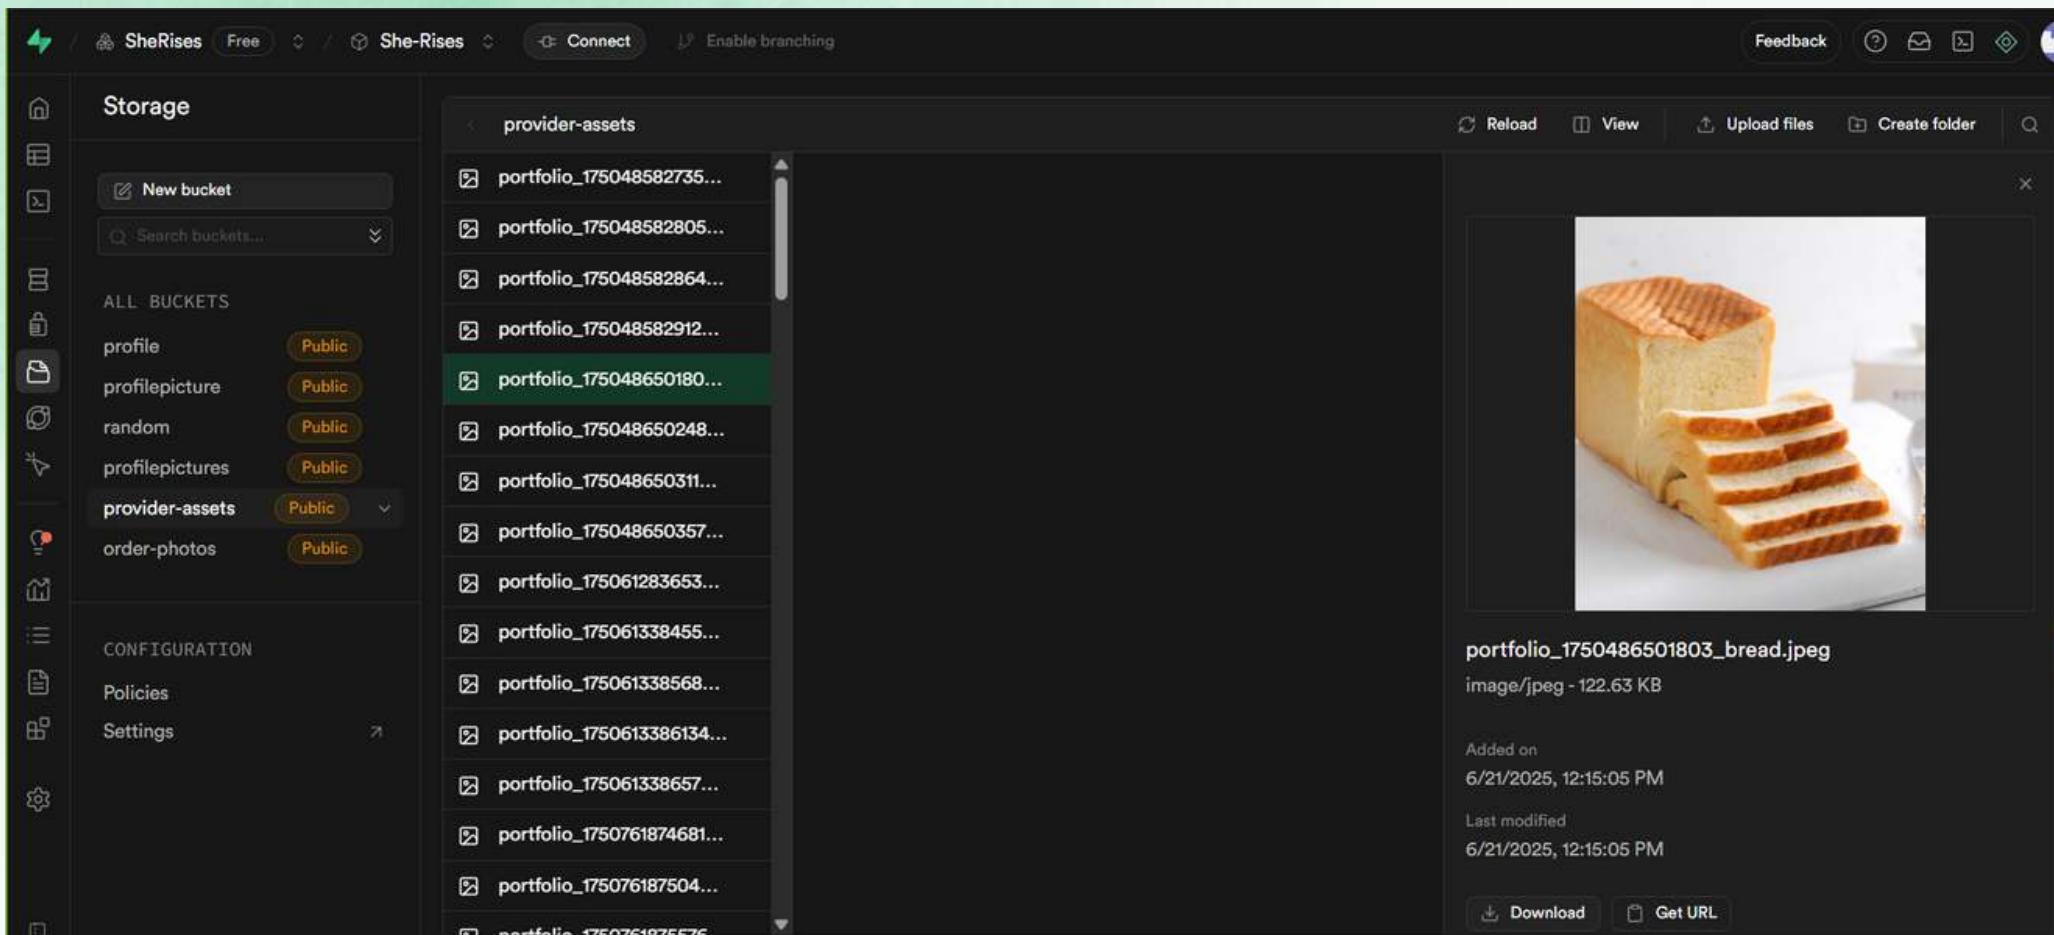

The screenshot displays a database management interface with the following sections:

- Top Bar:** Shows the project name "She-Rises" (NANO), connection status, and various navigation icons.
- Project Status:** Displays 5 Tables, 0 Functions, and 0 Replicas.
- Real-time Metrics:** Five cards showing request counts over the last 60 minutes:
  - Database:** REST Requests: 179 (chart from Jun 26, 10:58am to Jun 26, 11:39am)
  - Auth:** Auth Requests: 0
  - Storage:** Storage Requests: 1
  - Realtime:** Realtime Requests: 2
- Database Tables:** A table listing three tables in the public schema:

Name	Description	Rows (Estimated)	Size (Estimated)	Realtime Enabled
customers	No description	6	32 kB	X
orders	No description	16	32 kB	X
provider_extended	No description	7	168 kB	X

Each table row includes a preview icon, column count (8, 11, 18 columns), and a more options menu.

# Database Preview

A screenshot of a PostgreSQL Table Editor for the "provider\_extended" database. The left sidebar lists tables: schema public, New table, customers (selected), orders, provider\_extended, service\_providers, and service\_providers. The main panel displays the "customers" table with the following data:
